<https://www.linkedin.com/in/avery-brown-gathings-56021893/>

Recent graduate of the University of North Carolina Full Stack Flex Bootcamp seeking fulfilling career in web development. Resourceful, passionate professional with the ability to coordinate projects and lead teams, proven record of smooth and effective communication between various parties (small and large group), eager to acquire new skills and aid in the development of meaningful projects.

PROJECTS

DevConnect - Group-generated responsive application that allows users to create and authenticate logins, and communicate via web chatrooms to other members instantly.

Technologies: React, Socket.io, Passport, Foundation, Mongoose, React-emoji, bcrypt, Heroku

Github: <https://github.com/diminako/dev-connect>

Deployed: <https://secret-refuge-67245.herokuapp.com/>

Productivity Planner - Group-generated responsive application that provides users with the option to list their goals, plan their days with an hourly and daily calendar, track their progress, take notes, and view and share their progress with other users in their community.

Technologies: ESLint, Travis, Handlebars, Express, Luxon, Passport, Heroku

Github: <https://github.com/averyjbrown2/Productivity-Planner>

Deployed: <https://obscure-lake-47661.herokuapp.com/>

UltiMutt Dog Finder - Group-generated webpage that displays short quiz for users. Quiz results then provide info for available dogs matching user preferences in the selected area, with option for users to save their favorite dogs to local storage in order to revisit their top picks at a later time on the saved page.

Technologies: JS, JQuery, Google Fonts, Bulma, and three server-side APIs

Github: https://github.com/marenhamby/UltiMutt_dog_finder

Deployed: https://marenhamby.github.io/UltiMutt_dog_finder/

TECHNICAL SKILLS

- Creatively designed numerous web application layouts for individual and group projects
- Diligently researched and experimented with new obstacles in order to improve competencies
